Seeding Rate 8.00 PLS Pounds Per 1000 Square Feet  
 350.00 PLS Pounds Per Acre

**PRO SPORTS** is recommended for use wherever high-profile, high-traffic premium turfgrass is needed. It is a good choice for home lawns, athletic fields, parks, school grounds, golf courses, and other lower-maintenance industrial turf areas. Advantages of Pro Sports include the benefits derived from the dominant characteristics of each of the varieties which make up an attractive, durable turf. Less water is needed because of the deep root system. Pro Sports will perform best in fertile, well-drained soil, but can also survive under drought conditions and poor soils. It adapts well to heat, shade and cold and stands up to heavy traffic.

Recommended application rate is 8-10 lbs per 1,000 sq ft.
